- **Masters in Computer Science**
Pune University 2013
- **Bachelor in Computer Science**
Pune University 2011

PROJECTS

Renova Worldwide

Customise MLM Solution

<https://renovaworldwide.com/>

Technologies: WordPress, WooCommerce, Gutenberg Blocks, Elementor, Cloudflare, Hubspot, Redis, PHPUnit

Role: Developed the entire MLM system, including various Bonus Crons and plugins, enhancing operational efficiency.

Renova HealthPro | Headless CMS

<https://healthpro.renovaworldwide.com/>

Healthpro is a custom platform designed for medical representatives to manage referrals, place bulk orders, and access tailored discounts

Technologies: WordPress, MySQL, ReactJS, REST API, JWT Auth

Role: Contributed to the development of the Healthpro dashboard using ReactJS, integrating data from the WordPress API. Additionally, designed and implemented a custom order flow for Healthpro users to streamline their purchasing process.

Gizmogul

Marketplace for refurbished Phones

<https://gizmogul.com/>

Gizmogul is a marketplace where users can sell their refurbished cell phones. It empowers users to effortlessly sell their devices by guiding them through a user-friendly multistep wizard.

Technologies: PHP, Laravel, MySQL, Redis, jQuery, PHPUnit

Role: Project Manager, developed the custom vendor module.

Nimbus Performance

Shopping site with Affiliate Management

Nimbus Performance is an e-commerce platform featuring an integrated Affiliate Management System.

Technologies: PHP, Laravel, MySQL, Paypal, NMI Payment gateway

Role: As the Project Manager, I played a pivotal role in overseeing the development of the MLM (Multi-Level Marketing) system and the creation of affiliate portals.

iNotebook | MERN

Personal notebook app

<https://inotebook-swap.vercel.app/login>

<https://github.com/swapnilghone/inotebook>

Technologies: Nodejs, Express, MongoDB, ReactJS, JWT

iNoteBook is a personal notes app built using the MERN stack. It provides users with the ability to sign up or log in securely. Once logged in, users can create, view, edit, and manage their personal notes efficiently. User authentication is handled using JWT.

PROJECTS

Urban Abode

Property Listing Portal

Technologies: ReactJS, Vite, Bootstrap, REST API

Role: Implemented the API calls to fetch properties dynamically. Created functional components for listing and displaying properties, ensuring a seamless and user-friendly experience.

WebTutor

E-tutoring platform enabling teachers to register and conduct online classes via video conferencing

Technologies: Nodejs, Express, ReactJS, MongoDB, Cisco Webex, Rest API, Microservices

Role: Responsible for requirement gathering, designing database schemas, developing microservices based on project requirements, and integrating Cisco Webex API to enable video meetings and chat rooms.

Genesis Framework

Customize theme framework for WordPress

<https://www.wsigenesis.com/>

Technologies: PHP, WordPress, Genesis, Theme Development, Plugin Development, WidgetKit, Gravity Forms

Role: Worked on framework enhancement and adding new features. Developed multiple plugins like WSI-Theme Settings, WSI-Secure, WSI-Redirect, Widgetkit, etc.

Wowi Theme

WordPress Business theme for Real estate

<https://simplefox.io/work/wowi-theme/>

Technologies: PHP, WordPress, WPML, Theme Development, REST API

Role: Worked on 3rd party integration with ImmobilienScout24 and Immowelt, integrated CSS compiler, and created custom theme options
